## PROJECTS

---

### BabyGlo Website - Information Management System

UI/UX | Frontend

- A web-based Management System for BabyGlo's distribution business. It streamlines sales, delivery tracking, inventory monitoring, financial recording, and purchase orders, allowing the owner and employees to manage operations efficiently in real time.

### SOSit! - Personal Safety App w/ Accessory Panic Button

UI/UX | Frontend

- A BLE-enabled panic button system that provides real-time emergency alerts by connecting a wearable accessory to a mobile app. It retrieves GPS location, sends alerts via cloud services, and notifies emergency contacts instantly, offering a discreet and reliable personal safety solution.

## SKILLS AND INTERESTS

---

- **Programming and Development:** JavaScript, Dart, HTML, CSS
